## **EXAMINER'S COMMENTS**

### ***Response to Arguments***

1. Applicant's arguments filed 3/15/2005 have been fully considered and are persuasive.

### ***Reasons for Allowance***

2. The following is an examiner's statement of reasons for allowance: the prior art could not alone or in combination anticipate or make obvious a method for filling a box with flexible bags in which a first group of a single row of equally spaced bags is lifted by suction and lowered into a cassette, another group is thus lowered into the cassette to form a side-by-side group of bags, then the two side-by-side groups of bags are pushed horizontally from the case into a box; or an apparatus for performing this method comprising a transferal means for transferring groups of bags from a conveyor to a cassette, the cassette having a closable insertion opening on top, a stationary bottom, a displaceable side wall with a pusher plate, and an opposed side wall that allows passage of the group of bags from the cassette into a box.

The most pertinent prior art, GOODMAN ET AL, discloses a method and apparatus for filling a box with bags, but does not disclose transferring the bags from a single row into two side-by-side stacks or a cassette into which the bags are lowered having an open top and a pusher that moves the bags horizontally from the cassette into a box. Likewise VAN DAM discloses a method and apparatus for filling a box with bags, but does not disclose transferring the bags from

a single row into two side-by-side stacks or a cassette into which the bags are lowered having a stationary bottom, an open top, and a pusher that moves the bags horizontally from the cassette into a box.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
